Sellers from all over the nation use our auction platform for their best used and salvage vehicles. These vehicles were built for a second life.

AUCTIONEERS OF ADVENTURE

CrashedToys was founded in 2002 and started building its reputation as one of the best online sources for specialty vehicles. In 2013, CrashedToys was acquired by Copart, one of the largest online auto auction companies. This partnership allowed CrashedToys to advance its auction process as well as grow its inventory, pulling from over 170 Copart locations nationwide.
